

Projects completed at Turn To Tech iOS Apps

Turn To Tech iOS Training

These files are examples of the iOS problems I have worked on while at Turn To Tech.

I am enrolled in the iOS Developer track, learning all aspects of programming with Xcode and Objective-C.

After completing my studies, I will have worked with the following:

- iOS application development using iOS SDK (Xcode 6.4)
- Proficiency with Cocoa, C, Objective-C and Xcode, objective-oriented programming, various frameworks
- Knowledge of Javascript
- Git and GitHub and version control
- An application submitted to the Apple App Store
- Core Data persistence framework, SQLite
- Amazon EC2, S3, JSON
